

Support a Yao Family through the Pig Scheme Program

Go2Serve Foundation is a registered charity in the Hong Kong SAR since Aug 2009 (Ref no. 91/10371). The founders have a long history working with the impoverished Yao minority in the N. Guangdong mountainous region of over 17 years through schooling sponsorship and emergency medical funds for needy families. A sustainable pig farm was started in Mar 2009 with the goal of helping needy Yao families to be more financially stable through raising pigs in their own homes with proper training and vaccination. The money these families earn in the project helps to provide their basic family needs – sending their children to school and paying for the ever-increasing medical costs. The supporters of the Foundation are a group of people who care about the underprivileged in remote places where resources are scarce and people's needs are unheard of. We want to care for the needs of the hard to reach through sustainable projects and developments. We want to Go2Serve! All of the staff in the Foundation are volunteers and therefore administration costs are kept low. Majority of the donations received go into the different projects and fundings to help the people we serve in China. We invite you to support this project to empower the Yao minority in this region. Here are some details of the Pig Scheme Program:

Participating Yao farmers start in the program without putting out any money, Go2Serve Foundation deliver two 3-month old piglets to their home and provide pig feed, training and vaccination to help them to be successful in raising their pigs to sell in the market in 4 months. Yao farmer can earn about HK\$ 800 with 2 pigs sold in the market. We are committed to the Yao farmers for 2 years teaching them how to raise pigs for sale in the market and eventually breeding their own piglets to raise. Through the 2 year program, Yao farmers will learn pig farming skills, how to manage their income for re-investment and eventually increase their income and living standard. Go2Serve Foundation will also assist the farmers in the areas of hygiene and environmental impact in the village in order to help this program to be sustainable in the future e.g. assist them to apply funding for building methane tanks for pig wastes and ways to recycle pig wastes.

- I/We want to support _____ Yao families x _____ years in the Pig Scheme Program (HK\$ 500/family/year). Total amount HK\$_____. (We recommend you to set up with your own bank a monthly transfer instruction into our Hang Seng Bank account for this.)
- I/We want to support the daily operation cost of the Pig Farm/ Go2Serve Foundation/other projects (please specify) _____ HK\$_____.

Name: _____ Email: _____

Mailing address for sending donation receipt: _____

Mobile: _____
